SUMMARY

Aircraft simulator engineer with 14+ years in avionics and full-flight simulator engineering, currently an Aircraft Simulator Technical Professional (Integration Specialist) at CAE. Experienced in simulator integration, maintenance and troubleshooting, avionics and electrical/electronic systems. Holds an Aircraft Maintenance License (Avionics) and an MBA. Expanding into web development (HTML5, CSS3, Bootstrap 5) and preparing for the FCC GROL (Elements 1 & 3).

SKILLS

- **Engineering:** Flight simulator integration; simulator maintenance and troubleshooting; avionics systems; electrical/electronic systems; [REPLACE: tools / simulator platforms]
 - Simulator Systems: Full flight simulator (FFS) and flight training device (FTD) maintenance, troubleshooting and configuration; computer complex, interface, motion, visual, control loading and sound systems.
 - Software & Programming: Hands-on programming: debugging and modifying simulator source code; computer simulation software
 - Hardware and Software Integration (HSI); aircraft databases, Lesson Plans, IOS pages, malfunctions; networking.
 - Avionics & Electronics: Aircraft avionics and navigation systems; electronic and network theory (B.S. ECE); electrical schematics, vendor drawings and aircraft data; diagnostic test and measurement equipment (oscilloscopes, multimeters).
 - Regulatory & Quality: FAA 14 CFR Part 60, QTG objective testing, simulator qualification and certification support, SMS, quality assurance, inspections, emergency response, technical documentation.
 - Devices: CAE (Boeing & Airbus), Diamond DA40/42NG, Frasca C-172S, TRU; ATC simulators (Micro Nav, Best Simulation Systems).
 - Leadership & Professional: Team leadership, project management, mentoring and training, problem solving under pressure, customer communication, collaboration.
- **Web:** HTML5, CSS3, Bootstrap 5, responsive design, Git/GitHub, Netlify
- **Professional:** Technical documentation, team collaboration, project management (MBA)

EXPERIENCE

Aircraft Simulator Technical Professional, Integration Specialist — CAE, Dallas, TX | Oct 2023 – Present

- Led on-site computer complex upgrades, including the CAE CompKit4 (CK4) and sound system upgrade at a customer site.
- Perform Hardware and Software Integration (HSI) on flight simulator upgrades, including installation and checkout of upgraded hardware and software.
- Troubleshoot and resolve non-routine simulator operational discrepancies for airline and training center customers worldwide, including debugging and modifying simulator source code.

- Perform software updates and loads, including aircraft databases, aircrew Lesson Plans, Instructor Operating Station (IOS) pages and controls, and simulated aircraft malfunctions; support FAA 14 CFR Part 60 certifications.
- Deliver AOG support for unplanned simulator outages, restoring grounded simulators quickly and minimizing training downtime.
- Coach and train new staff on simulator systems and troubleshooting methods.

Aircraft Simulator Maintenance Engineer — Ethiopian Airlines | Dec 2011 – Dec 2022

- Led, trained and assessed a team of 30 Flight Simulator Technicians maintaining FFS, procedure trainers, mockups and ATC simulators.
- Performed preventive and corrective maintenance on computer, interface, motion, visual and control loading systems using diagnostic test and measurement equipment, minimizing downtime.
- Conducted QTG objective testing and maintained simulator qualification and certification records.
- Planned and executed flight simulator upgrades and integration; served as technical interface with flight simulator OEMs and subsystem manufacturers on software updates.
- Managed procurement and in-house/in-plant acceptance testing of new simulators.
- Created and maintained technical documents and standard work manuals; maintained a 100% safety record.

EDUCATION

-
- BSC: Electrical & Computer Engineering Addis Ababa University Institute of Technology - Addis Ababa, Ethiopia Mar 2017
- Aircraft Avionics Maintenance Ethiopian Airline Aviation Academy Nov 2011

LICENSES & TRAINING

- Aircraft Maintenance License (Avionics) — [REPLACE: Issuing authority], [REPLACE: Year]
- FCC General Radiotelephone Operator License (GROL), Elements 1 & 3 — In progress
- AI-Powered Web Development program — In progress (completed: HTML5, CSS3, Bootstrap 5) — Evangadi Tech

PROJECTS

- **Personal portfolio** (HTML5, CSS3, Bootstrap 5, Netlify) — Single-page, accessible portfolio; Lighthouse Performance 90+.
